9th of March, 15:00 to 18:00
BOZAR,
Rue Ravenstein, 23, Brussels
Room SALON ROYAL

In the framework of the Jean Monnet project "Visualising European Ideas" an interactive learning package for Russian secondary school pupils (13-16 years of age) has been prepared by Moscow State Pedagogical University (MSPU). Amongst various tools it contains a workbook which was created by MSPU students. They prepared 28 unique infographic illustrations about the life and culture of the 28 EU member countries.

Through these illustrations, an additional quiz, situation tasks and simulation games the package explicates the ideas, traditions and values of the EU institutional system.

We invite you, your friends and all interested children to this interactive project presentation realised by students of the MSPU and funded by the European Union within the framework of Erasmus+ and the Jean Monnet Project.
